
Meridian 1

ISDN Primary Rate Interface

Description and administration

Document Number: 553-2901-100

Document Release: Standard 14.00

Date: October 1997

Printed in the United States of America

Information is subject to change without notice. Northern Telecom reserves the right to make changes in design or components as progress in engineering and manufacturing may warrant. This equipment has been tested and found to comply with the limits for a Class A digital device pursuant to Part 15 of the FCC rules, and the radio interference regulations of Industry Canada. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at this own expense.

SL-1 and Meridian 1 are trademarks of Northern Telecom.

Revision history

October 1997

Standard, Release 14.00, issued for Generic X11 Release 23.

August 1996

Standard, Release 13.00, issued for Generic X11 Release 22.

December 1995

Standard, Release 12.0, issued for Generic X11 Release 21B.

July 1995

Standard, Release 11.0, issued for Generic X11 Release 21A.

December 1994

Standard, Release 10.0. This document is up-issued for X11 Release 20.

December 1994

Standard, Release 9.0. This document is issued for X11 Release 20.

October 31, 1993

Standard, Release 8.0. This document is up-issued for X11 Release 19.

August 1, 1993

Standard, Release 7.0. This document is issued for X11 Release 19.

April 1, 1993

Standard, Release 6.0. This document is up-issued for X11 Release 18.

December 31, 1992

Standard, Release 5.0. This document is issued for X11 Release 18.

Note: Release 4.0 was not issued.

December 1, 1991

Standard, Release 3.0. This document is issued for X11 Release 17.

Note: ISDN Primary Rate Interface description (553-2901-100) and ISDN Primary Rate Interface administration (553-2901-300) have been combined into one document called ISDN Primary Rate Interface description and administration (553-2901-100).

December 20, 1990

Standard, Release 2.0. This document is issued for X11 Release 16.

Note: Traffic reports have been removed (see *Traffic measurement formats and output* (553-2001-450)).

December 20, 1989

Standard, Release 1.0. X11 Release 15.
